MEAL PREP AND SERVING SIZES

This meal guide is designed to make healthy eating effortless and sustainable. Weekday meals repeat so you can eliminate decision fatigue, save time, and reduce food waste. Weekend meals offer greater flexibility and variety, often using ingredients you can prepare in advance.

Here are some ways to help simplify meal prep:

COOK ONCE, EAT TWICE

Double recipes so you can enjoy them on two different days. (To help make it easy, we've included a "Cook Once, Eat Twice" note in the directions where applicable.)

- Portion immediately after cooking.
- Refrigerate within 90 minutes of cooling.
- Store in airtight container for up to 4 days.
- Reheat in the oven or microwave until hot throughout (165°F internal temperature).

PREP SMART

- **Batch-cook proteins**
 - Brown all ground meat at once, then season and portion per recipe.
 - Bake, grill, or air fry chicken to be used in meals during the week (salads, wraps, etc.).
 - Cook bacon on one sheet pan.
- **Use smart shortcuts**
 - Buy pre-cooked items that will save time (hard boiled eggs).
 - Use frozen veggies to skip washing and trimming.
 - Choose pre-chopped vegetables when possible.
 - Grab microwavable packets instead of cooking from scratch (rice, quinoa, grain blends, beans).
- **Assemble, portion, and mix in advance**
 - Prepare overnight oats, chia puddings, or smoothie packs for the week.
 - Divide fruit into containers for snacks and smoothies.
 - For easy snacking, pre-portion nuts and portion hummus or dips with cut vegetables.
 - Pre-mix dressings, sauces, or marinades to save time later.
- **Keep storage easy**
 - Store proteins in airtight containers for up to 4 days.
 - Freeze extra portions if you won't use them right away.
- **Clean as you go**
 - For easier cleaning, line sheet pans with parchment paper.
 - Use one skillet for all ground meats (wipe clean between).

SERVING SIZES

All meal guide recipes are for a single serving. When applicable, instructions may include ingredients for 4 servings or a full batch. (REMEMBER: Since the recipes are calculated for 1 serving, that means your grocery list only includes ingredients for 1 serving.)

HOW TO ADJUST MEALS TO SUPPORT YOUR MACROS AND GOALS

To help you stay on track, you can make small tweaks to your ingredient amounts, like increasing protein, dialing back fats, or swapping in a different carb source. The tips below let you fine-tune your meals using whole foods — without needing to start from scratch or monitor every bite.

- **If you need more protein:**
 - Add 2–3 oz grilled chicken, turkey, or lean ground beef to bowls or salads
 - Mix a scoop of protein powder into smoothies, chia pudding, or oats
 - Stir egg whites into scrambles, pancakes, or even cooked oatmeal
- **If you need more carbs:**
 - Add ½–1 cup cooked rice, sweet potatoes, or quinoa to meals
 - Include fruit like bananas, apples, dates, or berries with a meal or snack
 - Add beans or lentils to soups, bowls, or salads
- **If you need more fat:**
 - Drizzle 1 tbsp olive oil, avocado oil, or tahini on meals
 - Enjoy 1–2 tbsp almond or seed butter with snacks or smoothies
 - Top meals with chopped nuts or seeds (chia, hemp, sunflower, etc.)
- **If you're going over on macros:**
 - Slightly reduce portions — like ½ cup instead of 1 cup cooked carbs
 - Use leaner proteins (egg whites, chicken breast) or reduce added oils
 - Skip extras like avocado or nut butters when they aren't essential to the meal

These little shifts can make a big difference over the course of the week — helping you stay consistent and confident. And if you ever want to switch up an ingredient, be sure to check out our [Whole Food Swap Guide](#).

- 1/8 Yellow Onion (18 grams)

Protein	40g	Zinc	7mg

DIRECTIONS

- 01 Prep note: Chop the onion, broccoli and Thai Basil. Slice the red bell pepper and green bell pepper.
- 02 Heat a cast-iron skillet over medium-high heat. Add the oil. Place the steak in the pan and cook for about 9-12 minutes, turning about 1 minute before the halfway point for the perfect medium-rare flank steak. A meat thermometer should read 130°F. If you desire a more "well done" steak, cook for 2-3 minutes longer on each side. Rest your flank steak for 10 minutes before serving, covering lightly with foil. The temperature of the meat will continue to rise about 5°F during this time (this is called "carryover cooking"). The final temperature will read 135°F. Once rested, slice against the grain and set aside.
- 03 While the beef cooks, in a small bowl, add the tamari, fish sauce, and lime juice. Stir to combine.
- 04 In the same skillet, add the onion, broccoli, and peppers. Cook until slightly softened, about four to five minutes.
- 05 Add the sauce to the skillet and toss to combine. Add the steak back into the skillet and cook for an additional minute or two to heat through and coat the steak with the sauce. Overcooking will result in chewy meat. Remove from the heat and add the Thai basil. Plate & enjoy!
- 06 TIME SAVING TIP - Cook Once, Eat Twice: Double this recipe. Use half on Wednesday, half on Thursday.
